Conference Participation Report on ICAIDSET 2026

Event Details :

Title of the Event: International Conference on Artificial Intelligence, Data Science & Emerging Technologies (ICAIDSET 2026)

Organized By: Institute of Advanced Computing & Research

Resource Person: Information was not available in the provided WhatsApp conversation or uploaded documents.

Head of Department: Information was not available in the provided WhatsApp conversation or uploaded documents.

Venue: Hyderabad International Convention Centre, Hyderabad

Date: 30th–31st July 2026

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: 1

Introduction

The Department of Artificial Intelligence & Machine Learning (AIML) is committed to fostering an environment of continuous learning and professional development for its faculty members.

In line with this vision, Dr. Meera Kulkarni participated in the International Conference on Artificial Intelligence, Data Science & Emerging Technologies (ICAIDSET 2026), held in Hyderabad, to gain insights into the latest technological advancements.

Objectives

The objectives of the workshop were:

1. To gain exposure to global research trends in AI and Data Science.
 2. To facilitate knowledge exchange with industry experts.
 3. To explore the practical applications of Generative and Agentic AI.
-

Workshop Proceedings

The conference spanned two days, featuring a series of technical sessions and expert-led discussions. Dr. Kulkarni actively participated in sessions focusing on the integration of Large Language Models and Computer Vision in real-world scenarios.

The event provided a platform for rigorous academic networking, allowing for the exchange of innovative ideas and research methodologies that are essential for the advancement of the AIML department.

Information was not available in the provided WhatsApp conversation or uploaded documents.

This event was specifically for faculty professional development; therefore, student participation was not applicable.

Topics Covered

1. Generative AI
 2. Agentic AI
 3. Machine Learning
 4. Data Science
 5. Large Language Models
 6. Computer Vision
 7. Responsible AI
-

Schedule Summary

1. Information was not available in the provided WhatsApp conversation or uploaded documents.
-

Learning Outcomes

After attending the workshop, students were able to:

1. Deepened understanding of current AI research trends.
 2. Enhanced ability to apply Agentic AI concepts in research.
 3. Strengthened professional network.
-

Key Highlights

1. Participation in a prestigious international conference.
 2. Focus on cutting-edge AI domains.
 3. Commitment to responsible AI practices.
-

Benefits

1. Faculty enrichment through exposure to global research.
 2. Potential for future research collaborations.
 3. Curriculum enrichment based on current industry trends.
-

Conclusion

The participation in ICAIDSET 2026 has been highly beneficial for the department, providing valuable insights that will contribute to the academic and research growth of the faculty.

The department looks forward to implementing the knowledge gained to further its mission of excellence in AI education.

AI Executive Summary

Dr. Meera Kulkarni from the Department of AIML participated in the International Conference on Artificial Intelligence, Data Science & Emerging Technologies (ICAIDSET 2026) in Hyderabad. The conference focused on critical areas such as Generative AI, Agentic AI, and Large Language Models. This participation reflects the department's commitment to continuous professional development and staying updated with the latest research trends in the field of Artificial Intelligence.

Acknowledgement

The department acknowledges the efforts of Dr. Meera Kulkarni for her active participation and thanks the organizers of ICAIDSET 2026 for providing a platform for academic growth.
