Department of Artificial Intelligence & Machine Learning

Workshop Report on Emerging Technologies in AI & ML

Event Details :

Title of the Event: Workshop on Emerging Technologies

Organized By: Department of Artificial Intelligence & Machine Learning

Resource Person: Information was not available in the provided WhatsApp conversation or uploaded documents.

Head of Department: Information was not available in the provided WhatsApp conversation or uploaded documents.

Venue: Information was not available in the provided WhatsApp conversation or uploaded documents.

Date: 21 August 2026

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: Information was not available in the provided WhatsApp conversation or uploaded documents.

Introduction

The Department of Artificial Intelligence & Machine Learning organized a workshop on 21 August 2026 to provide students with practical knowledge and exposure to emerging technologies.

The workshop was designed to complement classroom learning and help students understand the practical applications of technical concepts.

Objectives

The objectives of the workshop were:

1. To provide students with practical and industry-oriented knowledge.
2. To introduce students to emerging technologies and current trends.
3. To encourage students to learn through interactive sessions.

4. To develop technical skills and problem-solving abilities.
5. To bridge the gap between theoretical and practical learning.

Workshop Proceedings

The workshop featured an informative session delivered by the resource person, which was followed by technical demonstrations and interactive discussions. The flow of the event was designed to ensure that students could grasp complex concepts through a blend of theoretical explanation and practical observation.

Information was not available in the provided WhatsApp conversation or uploaded documents regarding the speaker's credentials.

Students from the Artificial Intelligence & Machine Learning Department participated enthusiastically. Their active involvement and interaction with the resource person made the session engaging and informative.

Topics Covered

1. Emerging technologies in AI & ML
2. Practical implementation of technical concepts

Schedule Summary

1. Information was not available in the provided WhatsApp conversation or uploaded documents.

Learning Outcomes

After attending the workshop, students were able to:

1. Enhanced technical awareness
2. Improved practical understanding of industry-relevant concepts
3. Development of problem-solving skills

Key Highlights

1. Interactive learning environment
2. Focus on real-world application of AI/ML
3. High level of student engagement

Benefits

1. Bridging the gap between theory and practice
2. Exposure to current industry trends
3. Preparation for future professional opportunities

Conclusion

The workshop organized by the Artificial Intelligence & Machine Learning Department on 21 August 2026 was informative and beneficial for the students.

It provided an excellent platform for learning, interaction, and skill development, helping students stay updated with technological advancements.

AI Executive Summary

The Department of Artificial Intelligence & Machine Learning conducted a workshop on 21 August 2026, focusing on emerging technologies. The event successfully bridged the gap between theoretical classroom learning and practical industry applications. Through a combination of expert-led sessions, demonstrations, and interactive discussions, students gained valuable insights into current technological trends. The workshop was well-received, fostering a collaborative environment that enhanced the technical and problem-solving skills of the participants, ultimately preparing them for future professional challenges.

Acknowledgement

The department acknowledges the efforts of the resource person, the faculty members, and the students for their active participation in making this workshop a success.
