Executive Summary

The Internship Report for the 2025-2026 academic period indicates a total of zero recorded internship activities across the institution. This represents a complete cessation of recorded internship data compared to the previous reporting period (2024-2025), which documented one internship record. Consequently, the institutional growth percentage for this module is -100%. No departmental, categorical, or performance-based data is available for analysis due to the absence of records during this timeframe. The lack of activity suggests a significant gap in the documentation or execution of internship programs for the current academic year.

Key Highlights

- 0 total internship records aggregated.
- -100% growth in internship participation.
- 1 record documented in the previous 2024-2025 period.
- 0 departments reported internship activity.

Recommendations

- Conduct an immediate audit of the internship reporting process to determine if the zero-record count is due to a lack of activity or a failure in data submission.
- Implement a standardized tracking mechanism to ensure all student internships are captured in the institutional database.
- Review departmental compliance regarding the documentation of experiential learning opportunities.
- Establish a formal verification process to ensure data integrity for future reporting cycles.
