Executive Summary

The Placement Report for the 2025-2026 academic period indicates the initiation of placement activities with a total of one recorded placement. This represents a 100% growth compared to the previous reporting period, during which no placement records were documented. The data reflects a singular placement event occurring in June 2025. The Computer Engineering department is the sole contributor to this placement record, and the placement was secured with the organization TCS. As this report covers the initial phase of the 2025-2026 cycle, the current data set is limited to a single entry. Future reporting will require a broader data set to establish meaningful trends regarding institutional placement efficacy, departmental distribution, and industry engagement.

Key Highlights

- Total placement records: 1
- Growth percentage: 100%
- Top department: Computer Engineering (1 record)
- Top employer: TCS (1 record)
- Peak activity month: June 2025
- Total modules analyzed: 1

Charts

Recommendations

- Expand data collection efforts to capture a more comprehensive range of placement activities across all departments.
- Monitor placement trends in subsequent months to determine if the current activity level is representative of the academic year.
- Implement standardized reporting protocols to ensure all departmental placement outcomes are captured in the institutional database.
