Executive Summary

The Placement Report for the 2025-2026 academic year indicates the initiation of placement activities within the institution. During the reporting period of June 2025 through May 2026, a total of one placement record was documented. This represents a 100% growth compared to the previous reporting period, during which no placement records were recorded. The data reflects a singular placement event occurring in June 2025, specifically within the Computer Engineering department. The placement was secured with the organization identified as TCS. The individual associated with this record is identified as pdf-report-test-Rahul. As this is the initial record for the current academic cycle, the institutional placement infrastructure is currently operating at a baseline level. Future reporting periods will be required to establish longitudinal trends and to assess the broader efficacy of the institutional placement program across diverse departments and industry sectors.

Key Highlights

- Total placement records: 1
- Growth percentage: 100%
- Top department: Computer Engineering (1 record)
- Top employer: TCS (1 record)
- Reporting period: June 2025 - May 2026
- Previous period count: 0

Recommendations

- Expand placement outreach to departments beyond Computer Engineering to ensure institutional-wide coverage.
- Diversify industry partnerships beyond the single recorded entity to mitigate concentration risk.
- Implement systematic tracking to capture placement data throughout the remainder of the academic year.
- Conduct a review of placement preparation programs to support increased student participation in future cycles.
