International Conference on Artificial Intelligence, Emerging Technologies & Smart Applications (ICAETSA 2026)

Generated: 8/8/2026

Coordinator: Information was not available in the provided WhatsApp conversation or uploaded documents.

Executive Summary

Dr. Riya Sharma from the Department of AIML participated in the ICAETSA 2026 conference held in Bengaluru, focusing on advancements in AI, ML, and intelligent automation.

Report

Department of Artificial Intelligence & Machine Learning

Workshop Report on ICAETSA 2026 Participation

Event Details :

Title of the Event: International Conference on Artificial Intelligence, Emerging Technologies & Smart Applications (ICAETSA 2026)

Organized By: Institute of Advanced Technology & Research

Resource Person: Not applicable (Conference Participation)

Head of Department: Information was not available in the provided WhatsApp conversation or uploaded documents.

Venue: International Convention Centre, Bengaluru

Date: 24th–25th July 2026

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: 1 (Dr. Riya Sharma)

Introduction

The International Conference on Artificial Intelligence, Emerging Technologies & Smart Applications (ICAETSA 2026) was organized to provide a platform for the exchange of ideas regarding the latest advancements in AI and its associated technologies.

The event aimed to bridge the gap between theoretical research and practical implementation in the domain of smart applications.

Objectives

To explore recent developments in Generative AI and Agentic AI.

To facilitate academic networking and knowledge exchange.

To stay updated with emerging technologies in Machine Learning and Computer Vision.

Workshop Proceedings

The conference proceedings involved a series of technical sessions and keynote addresses focused on the future of intelligent automation. Dr. Riya Sharma participated in these sessions, contributing to the discourse on emerging AI trends.

The conference featured various industry experts and researchers from the Institute of Advanced Technology & Research, who shared their expertise on AI-driven smart applications.

This event was a faculty-level participation; no student participation was recorded.

Topics Covered

Generative AI

Agentic AI

Machine Learning

Computer Vision

Natural Language Processing

Intelligent Automation

Schedule Summary

Information was not available in the provided WhatsApp conversation or uploaded documents.

Learning Outcomes

Enhanced knowledge of AI trends.

Exposure to advanced research methodologies.

Strengthened academic network.

Key Highlights

Focus on Agentic AI.

Participation in a prestigious international conference.

Professional development of faculty.

Benefits

Integration of new research insights into the curriculum.

Potential for future collaborative research.

Conclusion

The participation in ICAETSA 2026 was a successful initiative that contributed to the professional growth of the faculty member.

The department looks forward to applying the knowledge gained to enhance its academic and research output.

AI Executive Summary

Dr. Riya Sharma from the AIML department participated in the ICAETSA 2026 conference in Bengaluru. The event focused on Generative AI, Machine Learning, and intelligent automation, providing valuable insights for future academic and research endeavors.

Acknowledgement

The department acknowledges the efforts of Dr. Riya Sharma in representing the institution at this international forum and appreciates the organizers for conducting such a valuable event.
