Industrial Visit Report on TechNova AI Solutions Pvt. Ltd.

Event Details :

Title of the Event: Industrial Visit to TechNova AI Solutions Pvt. Ltd.

Organized By: Department of Artificial Intelligence & Machine Learning

Resource Person: Industry Professionals at TechNova AI Solutions

Head of Department: Dr. Neha Patil

Venue: TechNova AI Solutions Pvt. Ltd., Pune

Date: 18th July 2026

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: 62

Introduction

The Department of Artificial Intelligence & Machine Learning (AIML) organized an industrial visit to TechNova AI Solutions Pvt. Ltd., Pune, on 18th July 2026. This visit was aimed at providing second and third-year students with a comprehensive understanding of the industrial applications of AI and ML technologies.

The visit served as a vital bridge between theoretical knowledge gained in the classroom and the practical demands of the technology industry, fostering a deeper appreciation for the complexities of AI project lifecycles.

Objectives

The objectives of the industrial visit were:

1. To provide exposure to real-world AI/ML project development.
 2. To understand the implementation of Generative AI and LLMs in industry.
 3. To interact with industry professionals and understand career expectations.
 4. To observe data analytics and predictive modeling in practice.
-

Visit Proceedings

The industrial visit commenced with a warm welcome from the team at TechNova AI Solutions. The proceedings included a guided tour of the facility, followed by technical sessions led by industry experts. The students were introduced to the company's current projects, focusing on AI/ML deployment and computer vision applications.

The session was highly interactive, with students engaging in discussions regarding the challenges of data handling and the future of Generative AI. The industry professionals provided detailed explanations of their workflows, offering students a glimpse into the professional environment of an AI-driven organization.

The sessions were conducted by senior industry professionals at TechNova AI Solutions. These experts brought extensive experience in AI/ML development, providing students with valuable insights into the technical and professional skills required to succeed in the industry.

A total of 62 students from the second and third years of the AIML department participated in the visit. The students showed great enthusiasm and actively engaged with the industry experts throughout the sessions.

Topics Covered

1. AI/ML project development and deployment
 2. Generative AI and Large Language Models (LLMs)
 3. Machine Learning workflows
 4. Data analytics and predictive modeling
 5. Computer Vision applications
-

Schedule Summary

1. Information was not available in the provided WhatsApp conversation or uploaded documents.
-

Learning Outcomes

After the industrial visit, students were able to:

1. Improved understanding of industry-standard AI development processes.
2. Practical insights into the application of LLMs and Generative AI.

3. Enhanced awareness of professional expectations in the AI sector.

Key Highlights

1. Direct exposure to industry-grade AI/ML infrastructure.
 2. Insightful discussions on current trends in AI.
 3. Successful coordination between faculty and industry experts.
-

Benefits

1. Bridging the gap between academia and industry.
 2. Exposure to real-world problem-solving techniques.
 3. Networking opportunities with industry professionals.
-

Conclusion

The industrial visit to TechNova AI Solutions was a highly productive experience for the students. It successfully aligned academic learning with industrial practices, providing a clear vision of the professional landscape.

The department expresses its gratitude to the management of TechNova AI Solutions for hosting the students and to the faculty coordinators for their efforts in making the visit a success.

AI Executive Summary

On July 18, 2026, the AIML department organized an industrial visit to TechNova AI Solutions, Pune, for 62 students. The visit provided a platform for students to explore real-world applications of AI, ML, and Generative AI. Through technical sessions and interactions with industry experts, students gained valuable insights into project development, data analytics, and industry expectations. This initiative successfully bridged the gap between classroom theory and industrial practice, contributing to the professional development of the students.

Acknowledgement

The department extends its sincere thanks to the industry professionals at TechNova AI Solutions for their time and expertise. We also acknowledge the efforts of Dr. Neha Patil, Prof. Aditya Joshi, and Prof. Snehal Kulkarni for their coordination and support in

organizing this visit.
