

Department of Artificial Intelligence & Machine Learning (AIML)

Workshop Report on Generative AI and the Future of Intelligent Systems

Event Details :

Title of the Event: Guest Lecture on Generative AI and the Future of Intelligent Systems

Organized By: Department of AIML

Resource Person: Mr. Karan Mehta, Senior AI Engineer, InnovateX Technologies Pvt. Ltd.

Head of Department: Information was not available in the provided WhatsApp conversation or uploaded documents.

Venue: Seminar Hall, [Institute Name]

Date: 6th August 2026

Time: 11:00 AM to 1:00 PM

Participants: Second and Third Year AIML students

Introduction

The Department of Artificial Intelligence & Machine Learning (AIML) organized a guest lecture to bridge the gap between classroom learning and the rapidly evolving AI industry.

The session aimed to provide students with a comprehensive understanding of Generative AI and its future implications for intelligent systems.

Objectives

The objectives of the workshop were:

1. To educate students on the fundamentals and advanced applications of Generative AI.
 2. To provide industry-relevant insights into LLMs and Agentic AI.
 3. To guide students on career opportunities in the AI sector.
-

Workshop Proceedings

The session began with an introduction to the speaker, Mr. Karan Mehta. He delivered a detailed presentation on the current state of AI, followed by an interactive session where students engaged in discussions about real-world AI applications and prompt engineering.

Mr. Karan Mehta is a Senior AI Engineer at InnovateX Technologies Pvt. Ltd. His expertise lies in the development and deployment of intelligent systems, and he provided valuable practical insights during the session.

The session saw active participation from second and third-year AIML students, who engaged in meaningful discussions with the speaker regarding the future of AI technology.

Topics Covered

1. Generative AI
 2. Large Language Models (LLMs)
 3. Agentic AI
 4. Prompt Engineering
 5. Real-world AI applications
 6. Career opportunities in the AI industry
-

Schedule Summary

1. Information was not available in the provided WhatsApp conversation or uploaded documents.
-

Learning Outcomes

After attending the workshop, students were able to:

1. Students gained a deeper understanding of Generative AI architectures.
 2. Students learned about the practical application of prompt engineering.
 3. Students received guidance on industry-ready skill sets.
-

Key Highlights

1. Expert industry perspective on Agentic AI.

2. Interactive session fostering student-industry engagement.

Benefits

1. Exposure to industry-standard AI practices.
 2. Enhanced knowledge of emerging technologies.
-

Conclusion

The guest lecture was a successful initiative that provided students with a clear understanding of the current trends in AI.

The department remains committed to organizing such sessions to keep students updated with industry advancements.

AI Executive Summary

The Department of AIML hosted a guest lecture by Mr. Karan Mehta on 'Generative AI and the Future of Intelligent Systems.' The session covered critical topics including LLMs, Agentic AI, and prompt engineering, providing students with essential industry insights and career guidance.

Acknowledgement

The department extends its sincere gratitude to Mr. Karan Mehta for his time and valuable insights. We also thank the faculty and students for their active participation.
