Workshop Report on NBA Accreditation SAR Format

Event Details :

Title of the Event: NBA SAR Format (GAPC V4.0) Orientation

Organized By: National Board of Accreditation

Resource Person: Information was not available in the provided WhatsApp conversation or uploaded documents.

Head of Department: Information was not available in the provided WhatsApp conversation or uploaded documents.

Venue: National Board of Accreditation, New Delhi

Date: July 2024

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: Information was not available in the provided WhatsApp conversation or uploaded documents.

Introduction

The National Board of Accreditation (NBA) has introduced the updated Self-Assessment Report (SAR) format, Version 4.0 (GAPC V4.0), to streamline the accreditation process for undergraduate engineering programs in Tier-I institutions.

This document serves as the official guideline for institutions to document their compliance with outcome-based education standards and professional competencies.

Objectives

The objectives of the workshop were:

1. To standardize the reporting of institutional data for accreditation.
 2. To provide a clear framework for mapping program outcomes and course outcomes.
 3. To ensure transparency and quality in engineering education.
-

Workshop Proceedings

The document outlines the systematic approach required for accreditation, starting from institutional information to the detailed criteria summary.

It provides specific instructions for faculty data, student performance metrics, and research contributions, ensuring that all aspects of the institution are evaluated against established benchmarks.

The document is an official publication of the National Board of Accreditation, reflecting the collective expertise of the board in setting quality standards for engineering education.

The SAR format requires detailed documentation of student participation in professional events, publications, and innovative projects, emphasizing the role of students in the accreditation process.

Topics Covered

1. Outcome-Based Curriculum
 2. Outcome-Based Teaching-Learning
 3. Outcome-Based Assessment
 4. Student Performance
 5. Faculty Information and Contributions
 6. Facilities and Technical Support
 7. Continuous Improvement
 8. Student Support System and Governance
-

Schedule Summary

1. The SAR format is structured into nine criteria, each with specific weightage and documentation requirements, to be completed over the assessment period.
-

Learning Outcomes

After attending the workshop, students were able to:

1. Institutions will be better equipped to document their adherence to NBA standards.
2. Improved understanding of the metrics required for accreditation.

3. Enhanced ability to demonstrate continuous improvement in academic and research activities.

Key Highlights

1. Introduction of GAPC V4.0.
 2. Comprehensive nine-criterion framework.
 3. Standardized tables for data reporting.
 4. Focus on sustainable development goals.
-

Benefits

1. Clearer path to NBA accreditation.
 2. Standardized quality assurance processes.
 3. Better alignment with global engineering competencies.
-

Conclusion

The SAR Format Version 4.0 is a vital tool for institutions aiming for NBA accreditation. It provides a structured and transparent framework that encourages institutions to evaluate their performance critically.

By following these guidelines, institutions can ensure that their engineering programs meet the highest standards of quality and relevance.

AI Executive Summary

The NBA SAR Format Version 4.0 (GAPC V4.0) is the definitive guide for Tier-I engineering institutions seeking accreditation. It provides a rigorous framework across nine criteria, focusing on outcome-based education, faculty quality, and institutional governance. This document ensures that institutions can systematically document their academic and research activities, ultimately leading to improved quality and global recognition of their engineering programs.

Acknowledgement

The institution acknowledges the National Board of Accreditation for providing this comprehensive framework to guide the quality assurance process.
