

Department of Artificial Intelligence & Machine Learning (AIML)

Workshop Report on Microsoft Azure Cloud Infrastructure

Event Details :

Title of the Event: Microsoft Azure Cloud Infrastructure: The Future of Cloud Computing and Job Prospect

Organized By: Department of Artificial Intelligence & Machine Learning (AIML)

Resource Person: Dr. Mahesh Patil

Head of Department: Prof. Siddheshwar Patil

Venue: East West University

Date: 2026-08-03

Time: Information was not available in the provided WhatsApp conversation or uploaded documents.

Participants: 50 students

Introduction

The Department of Artificial Intelligence & Machine Learning (AIML) at East West University organized a specialized workshop focused on Microsoft Azure Cloud Infrastructure. This event was aimed at providing students with a deep understanding of cloud computing, a critical skill set in the current technological landscape.

The workshop was designed to bridge the gap between academic learning and industry expectations, ensuring students are well-versed in modern cloud deployment techniques and professional certification standards.

Objectives

The objectives of the workshop were:

1. To provide comprehensive knowledge on Microsoft Azure Cloud services.
 2. To educate students on cloud infrastructure and deployment techniques.
 3. To discuss industry best practices and professional certifications.
 4. To explore career opportunities in the field of cloud computing.
-

Workshop Proceedings

The workshop commenced with a warm welcome to the resource person, Dr. Mahesh Patil, and the faculty members. The session followed a structured flow, beginning with the fundamentals of cloud infrastructure and progressing to advanced deployment techniques. Dr. Patil utilized an interactive approach, encouraging students to engage with the material through real-world examples and Q&A sessions, which kept the audience highly attentive throughout the proceedings.

Dr. Mahesh Patil served as the resource person for the workshop. He brought extensive knowledge of Microsoft Azure services and industry best practices. His session was highly informative, focusing on both the technical aspects of cloud infrastructure and the strategic importance of certifications for career advancement in the cloud computing sector.

The workshop saw active participation from 50 students of the AIML department. The students showed great enthusiasm and engagement, participating in discussions and seeking clarifications on complex cloud concepts, which contributed to a successful and productive learning environment.

We are delighted to share that the Department of Artificial Intelligence & Machine Learning (AIML) successfully organized an insightful workshop on Microsoft Azure Cloud.

The workshop was conducted by Dr. Mahesh Patil Sir, who shared valuable knowledge on Microsoft Azure Cloud services, cloud infrastructure, deployment techniques, industry best practices, certifications, and career opportunities in cloud computing. The session was highly interactive and provided participants with practical insights into cloud technologies and their real-world applications.

The workshop was graced by the presence of our respected Head of Department, Prof. Siddheshwar Patil Sir, along with all the faculty members of the AIML Department. Around 50 students actively participated in the workshop, making it an engaging and successful learning experience.

We sincerely thank Dr. Mahesh Patil Sir, our respected HOD Prof. Siddheshwar Patil Sir, all the faculty members, and every student for their enthusiastic participation and support.

Topics Covered

1. Microsoft Azure Cloud services
 2. Cloud infrastructure architecture
 3. Deployment techniques
 4. Industry best practices
 5. Professional certification pathways
 6. Career opportunities in cloud computing
-

Schedule Summary

1. Information was not available in the provided WhatsApp conversation or uploaded documents.
-

Learning Outcomes

After attending the workshop, students were able to:

1. Enhanced understanding of cloud infrastructure components.
 2. Familiarity with industry best practices for cloud deployment.
 3. Awareness of professional certification pathways in Azure.
 4. Insight into the current job market and career prospects in cloud computing.
-

Key Highlights

1. Expert delivery by Dr. Mahesh Patil.
 2. Active participation of 50 students.
 3. Presence and support of the Head of Department, Prof. Siddheshwar Patil.
 4. Focus on practical, real-world applications of cloud technology.
-

Benefits

1. Students gained practical insights into cloud technologies.
 2. Increased awareness of industry-standard certifications.
 3. Improved understanding of career paths within the cloud computing domain.
-

Conclusion

The workshop successfully achieved its goal of educating students on the nuances of Microsoft Azure Cloud Infrastructure. The event provided a valuable platform for students to interact with industry experts and gain insights that are crucial for their professional growth.

The department looks forward to organizing more such events to further enhance the technical skills and employability of the students.

AI Executive Summary

The Department of AIML at East West University conducted a workshop on Microsoft Azure Cloud Infrastructure, led by Dr. Mahesh Patil. The event provided 50 students with essential knowledge regarding cloud services, deployment, and career prospects. Through interactive sessions and expert guidance, the workshop successfully bridged the gap between academic theory and industry requirements, fostering a deeper understanding of cloud computing technologies and professional certification paths.

Acknowledgement

We extend our sincere gratitude to Dr. Mahesh Patil for his valuable time and expertise. We also thank our Head of Department, Prof. Siddheshwar Patil, for his constant support and guidance. Special thanks to all the faculty members and the 50 students whose enthusiastic participation made this workshop a grand success.
